功能优势

Ease of Mastery

To meet your ever-changing business needs, you can quickly add or delete CVMs in minutes. By defining relevant policies, you can ensure that your CVM instances will be seamlessly scaled up during periods of higher demand to ensure application availability and scaled down during periods of lower demand to save costs.

IT Cost Reduction

To meet your ever-changing business needs, you can quickly add or delete CVMs in minutes. By defining relevant policies, you can ensure that your CVM instances will be seamlessly scaled up during periods of higher demand to ensure application availability and scaled down during periods of lower demand to save costs.

Out-of-the-Box Service

CVM offers a wide variety of instances, operating systems and software packages. You can flexibly adjust each instance's CPU, memory, disk and bandwidth configuration to match your applications. CVM supports multiple Linux distribution versions and Windows Server versions.

High-Quality Application

Cloud Block Storage mounted on CVM provides a triplicate storage policy, ensuring fast data migration and recovery in the event of the downtime of any copy. Leveraging its sophisticated network virtualization and ENI binding technologies, CVM runs on the robust network architecture of T3+ IDCs to ensure high network availability.

High Stability and Reliability

Cloud Block Storage mounted on CVM provides a triplicate storage policy, ensuring fast data migration and recovery in the event of the downtime of any copy. Support Various Use Cases

High Quality and Global Coverage Real-Time Services

High Stability and Availability

We sustain tens of millions of concurrent requests with at least 99.9% service availability guaranteed by SLA. Its highly elastic and scalable network architecture has been well proven by tens of thousands of enterprise users.

Guaranteed Audio/Video Quality

We deliver a global end-to-end latency of below 300 ms on average. It can make audio calls under a packet loss rate of 80% and make video calls under a packet loss rate of 70%.

High Compatibility

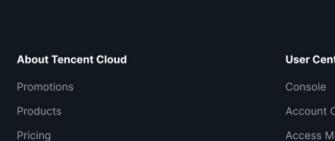

We support multiple platforms, including iOS, Android, Windows, macOS, web, Flutter, Electron, Unity, Unreal, and React Native, and is perfectly adaptable to over 20,000 device models.

Optimized Global Deployment

Available in over 200 countries and regions and be especially optimized for networks in Southeast Asia, the Middle East, and North America.

知吾煮微信小程序

ZHIWU'ZHU WECHAT APPLET

让美食变得更简单，让烹饪不再繁琐

01 Introduction

项目简介

知吾煮小程序是纯米旗下智能控制平台，目前已服务于“知吾煮”、“米家”、“圈厨”等多个品牌的智能厨房设备。APP的智能食谱，搭配有定制的烹饪曲线，让小白也能轻松下厨；上千道专业食谱，启发你的烹饪灵感；摄区板块的美食分享，可以让你和其他达人欢乐互动；还有节气活动、积分活动等多种福利活动，超多惊喜等你来体验。

知吾煮不仅仅是一个小程序，还是一种面向未来的智慧厨房生活方式。

The Zhiwuzhan applet is an intelligent control platform of Pure Rice, and it has served many brands of smart kitchen equipment such as "Zhiwuzhu", "Mijia", and "Quanchu".

Zhiwuzhuo is not only a small program, but also a future-oriented smart kitchen lifestyle.

02 Mood Board

设计构思

03 User Group

用户人群

● 都市白领上班族

上班族平常忙于工作，只有休息时才有时间制作自己喜爱的美食，这类人群的需求就是忙，没有时间，不知道如何去烹饪自己喜欢的美食，需要一个快速简洁又易上手的工具。

OFFICE WORKERS ARE USUALLY BUSY WITH WORK. THE PAIN POINT OF THESE PEOPLE IS THAT THEY ARE BUSY, HAVE NO TIME, AND DO NOT KNOW HOW TO COOK.

● 家庭主妇

妈妈们平常在家烹饪时最关心的就是如何让家人吃的更健康，更开心，但又没有一个好的工具辅助她们所以她们的需求就是需要一个了解健康饮食的便捷途径。

WHEN MOTHERS ARE COOKING AT HOME, WHAT THEY CARE MOST ABOUT IS HOW TO MAKE THEIR FAMILY EAT HEALTHIER AND HAPPIER. THEIR PAIN POINT IS THAT THEY NEED A CONVENIENT WAY TO UNDERSTAND HEALTHY EATING.

● 烹饪爱好者

这类人群平常热衷于美食的制作，对于美食有自己的想法，想要和他人一起分享美食带来的快乐，所以他们的需求就是需要一个方便快捷而且可以和同类人分享美食带来的快乐的便捷渠道。

SUCH PEOPLE ARE USUALLY KEEN ON THE PRODUCTION OF FOOD AND NEED A CHANNEL WHERE THEY CAN SHARE HAPPINESS WITH THEIR PEERS.
